BUILDING SINCE 1998

EXPERIENCED

Dear Building Owner,

Back on July 7, we had a storm that showered down 2.5-3.75" hail. That size of hail can do dramatic damage to a flat or slightly pitched commercial roof. We would like to give you peace of mind with a **FREE DAMAGE INSPECTION**. We will let you know what we find. Please call if you'd like my son and I to give your roof a look. Thank you, I look forward to your call. 555-123-4511

Ray
